

## Webinar Guide

### Big Picture

- Connecting with new students and teachers using a new approach
- Collaboration and community - not competition
- Promoting a positive maths mindset - Jo Boaler: Positive Norms in Maths Class
- A two-year alternating program for Years 1 and Year 2

### Expectations

- This pilot program is 'taste testing' new tools, new tasks and new techniques
- Proof of concept - does the technology work? Are the instructions clear?
- In 2023, each topic will be given more time in class
- Please sample and select tasks - choose what you anticipate will fit your classroom best
- We want you to enjoy the experience - please do not become overwhelmed
- Mid point webinar

### Structure of each module

#### Teacher Preparation:

- Visit pilot website to find and download resources
- Watch concept and teaching tips videos with colleagues
- Print task cards and resources, select sets for student
- Print introduction lesson guide
- Test technology - on IWB and students devices

#### Lessons:

- Introduction lesson using IWB and activity sheets
- Whole or group lessons, collaboratively exploring task cards
- Second IWB lesson and activity sheets
- Whole or group lessons, collaboratively exploring task cards
- Class challenge - small groups to solve, then gather as a class to share, compare and submit final answers

#### Resources

- Project website with links to resources
- Concept videos and teaching tips videos
- Lesson guides
- IWB teaching tools and (hopefully) iPad/Tablet activities
- Task cards, with response sheets and answers
- 'Read to Me' audio on iPads/Tablets for student literacy support
- Dominoes and Lego blocks templates to print and laminate
