

## Module Three - Let's Look at Logic

### Focus Lesson Five:

- Launch the Logic Tool
- Click on the Let's Look at Logic button
- Take your students through the slides, using the embedded audio or print the annotated guide if you'd like to give your own explanations
- Hand out to students the Confused Counters Activity Sheet and counters or the printed counters on the cut out sheet.
- Complete the Confused Counters puzzles using your IWB or screen
- Hand out the Street Scene Activity Sheets and picture cards of buildings
- Complete the Street Scene puzzles using your IWB or screen
- Hand out the Sort the Shapes Activity Sheets and the shape cut outs
- Let students put their hands up and take turns choosing an audio clue to listen to
- Before revealing the solution, listen once more to the clues while students check their answer for accuracy
- Have task cards ready if the lesson finishes early
